

Christopher Lauriat, AIA

In nearly two decades of architectural practice, Christopher Lauriat has designed over 50 single family homes, several mixed-use and residential developments, dozens of ministry facilities, a Ronald McDonald House, office interiors, restaurants, and multimedia installations. He is assistant professor of Architecture at Judson University, focusing on design studios in architecture and interior design as well as digital representation and fabrication courses. Professor Lauriat is currently the assistant chair for the Department of Architecture and Interior Design. He was previously guest instructor in Physics at Wheaton College, teaching in the engineering program. Christopher holds a Bachelor of Architecture and Bachelor of Science in Environmental Engineering from Ball State University and a Master of

Architecture from Cornell University. He continues to serve in the community, co-leading an Architecture Club and Robotics Team at Wheaton Christian Grammar School and presenting design workshops in public elementary schools. Mr. Lauriat is a board member with the American Institute of Architects Northeast Illinois chapter, helping connect architects, students, and their communities. Christopher can often be found running, cycling, or playing a variety of musical instruments.
